

Jason Buoni

Software Engineer

Who am I?

I am a polyglot developer with a Masters in Computer Science. I focus on full stack development and enjoy learning about cyber security principles and machine learning. After struggling with my resume, I decided to go a different route and make my own template. I created this resume using ReactJS. You can see it on my website!

jQuery:	★★★★★

Soft Skills

Mentorship:	★★★★★
Leadership:	★★★★
Collaboration:	★★★★★
Communication:	★★★★

Certifications

Scrum Certification, 2016 Scrum Alliance

Experience

May 2015 - Present

Turner Broadcasting Inc., Atlanta GA

Senior Software Developer

- Developed backend and frontend services used to transfer video files and metadata to CNN and Turner internal systems around the world.
- Worked as a member of a scrum team for multiple high visibility projects including the Elections System and Content Supply Chain.
- Worked with multiple languages and frameworks throughout the day such as NodeJS, React, Scala, Java, Python, and MongoDB.
- Assisted in DevOps related tasks using Chef, AWS, and Jenkins.
- Created a new tracking system as a side project using Scala and Akka. Project was deployed internally and replaced multiple legacy systems.
- Spearheaded mentorship program for my department, which was incorporated to all intern positions for the GTO Tech Intern program.

June 2013 - May 2015

Westat, Atlanta GA

Programmer Analyst

- Developed backend and front end services used to monitor and analyze large amounts of data.
- Worked with multiple languages and databases including C#, Java, Android, JavaScript, JQuery, SQL, PostgreSQL, MySQL and SQLite.
- Created data visualization user interfaces using tools such as Google Charts and Google Maps.

December 2012 – May 2013

Mary Cariola Children's Center, Rochester New York

Website Developer

February 2011 – September 2011

Verivo Software, Waltham Massachusetts

Product Manager

March 2012 – November 2012

Brand Networks Inc., Rochester NY

Software Developer

Education

August 2018

Georgia Institute of Technology

Masters of Science, Computer Science

- Graduated with a 3.8 GPA.
- Specialized in Computing Systems with a focus on cyber security.
- Took classes related to security, machine learning, computational photography, and HCI.
- Primary languages used were Python and Java.

May 2013

Rochester Institute of Technology

Bachelors of Science, Software Engineering, Economics Minor
